OBJECTIVE

Enthusiastic and skilled Full Stack Developer adept in both front-end and back-end technologies. Passionately dedicated to contributing to cutting-edge projects, with a comprehensive understanding of web development. Eager to collaborate with dynamic teams, leverage expertise to innovate and excel. Thrilled by opportunities to tackle challenges, stay abreast of emerging technologies, and make impactful contributions that drive the industry forward.

EDUCATION

Bachelor of Engineering (Computer Science), St Peter's College of Engineering and Technology   2016-2020

Higher Secondary Certificate, Sethu Bhaskara Matriculation Higher Secondary School   2015 - 2016

Secondary School Certificate, SRM Matriculation Higher Secondary School   2013 - 2014

SKILLS

Technical Skills	JavaScript, HTML5, CSS, Bootstrap, React.js, Node.js, MySQL, MongoDB, Express.js, Git.
Soft Skills	Teamwork, Problem Solving, Communication, Learning Mindset, Adaptability.

PROJECTS

Online Music Player. The development of the online music player utilized the MERN stack (MongoDB, Express.js, React.js, Node.js). The system effortlessly manages songs and playlists in a diverse catalogue, providing users with a streamlined and intuitive interface. Robust user authentication ensures data privacy, and dynamic search features enrich the experience of music discovery. The responsive design guarantees a consistent user experience across various devices, while integrated social features foster community interaction.

Personal Portfolio. Built an interactive portfolio using JavaScript, React, and Tailwind CSS to create an engaging user experience. Utilized Tailwind CSS for streamlined styling, reducing the need for extensive custom CSS. Achieved a modern and responsive design, ensuring an appealing appearance across different devices. Launched effortlessly on Netlify for global accessibility, making it simple to share creative and technical achievements.

Shopping Website using React and Redux. Explore online shopping effortlessly with our React and Redux-powered Shopping Website. Delight in a user-friendly interface for seamless product browsing, simple cart management, and hassle-free addition of items. Enhance your shopping experience with the powerful capabilities of React and Redux, guaranteeing a responsive and seamless platform tailored to your needs.

ACHIEVEMENTS

- Participated in the Seminar on Business Intelligence and Analytics organized by the Computer Society of India (CSI), I gained in-depth insights into the latest trends and strategies. The event included engaging discussions, presentations, and valuable networking opportunities, enriching my understanding of the crucial role that business intelligence and analytics play in the dynamic business landscape.

- Presented a paper titled "Smart Luggage Tracking and Alert System using Arduino" at the 7th National Conference on Advanced Computing Technologies organized by the Department of Computer Science and Engineering, Velammal Engineering College, Chennai on 14th March 2020.

- Successfully completed Guvi's challenging Full Stack Developer MERN program, showcasing expertise in end-to-end application development with the MERN stack. Deployed multiple web applications, demonstrating proficiency in both frontend and backend development using modern JavaScript frameworks. Actively engaged in code reviews and debugging sessions at Guvi, identifying and resolving complex technical issues to ensure application integrity and functionality.
